

Dear Commissioner:

DEC 9 1 2007

I am writing to ask you to give local low-power FM radio station applicants precedence over translators that broadcast from distant locales and provide no local content whatsoever. As you know, as things stand, big cities like Chicago have been told there is no room for new LPFM radio stations. But at the same time, translators that use the same equipment and the same frequencies as LPFM have been granted licenses again and again. I hope you will reconsider this decision and make sure more local voices are heard in this time of rampant media consolidation.

Please prioritize local low-power FM applicants in large markets over translator licenses that provide no local programming.

Sincerely,

Danielle Eldred
